

Fat Sam's Band

Description

Think 'Post-Modern Jukebox'... (if you don't know what it is, Google it!) Tons of modern, up-to-date even, wildly popular hits done in the style of the roaring twenties (ish...) That is what Fat Sam's band is all about. Three fabulous singers out front, another three singers who also happen to be superb musicians at the back... And of course the line-up is optional depending on budget. You can have up to a 7-piece backing band and three singers, or a 3-piece band with just two singers... In reality there's a Fat Sam to suit all wallets! Especially suited to (but certainly not limited to) nice corporate events and weddings, the band carries with them a superb sound and lighting rig if so required.
