

Celebration of Whitney

Description

Hayley Ria is, in her own right, one of the most respected female performers in the UK to date. She has amassed a huge amount of recognition as a singer who can go out there and deliver a stunning performance every time. Her tribute to the late iconic world legend Whitney Houston has been described as 'amazingly accurate' and vocally Hayley has got it spot on! The American accent is there and Hayley's stagewear has been carefully chosen to emulate Whitney's costumes as closely as can be.

This show is expected to run and run as one of the best tribute shows ever to have been produced. Hayley can work on playback with high quality studio tracks or with up to 9 piece band.

Whitney Houston tribute artistes are quite rare as the genuine article had a voice which was so note-perfect, so vocally able and so incredibly gymnastic that most female singers just can't come anywhere close. Hayley Ria takes all of this in her stride.

She is consummate professional where singing, acting and stage-performance is concerned; a lady who has travelled to the four corners of the globe to perform a multitude of shows. A very classy act – and with her Whitney Houston Tribute Show, some very classy songs too – that is just guaranteed to woo classy audiences anywhere.

Expect to see and hear all of the stupendously massive hits in all their glory from a lady who can really sing.
