

Mark as Barlow

## Description

The heavy Cheshire twang in Gary's™ voice – both speaking and singing is a difficult call for most vocalists – and convincing – Garys™ are hard to find. Luckily, Mark has just the right set of vocal cords to convince and he just happens to have – the look™ to match. Further to appearing in Take That tribute bands, Mark has more recently followed a solo career path where he now performs all of the best Gary Barlow tunes (of course, some of those are hits from Take That!) A favourite artiste for young and old alike.
