

The Elton John Story

Description

The Elton John Story is a narrative of the life and songs of Sir Elton John performed by Phil Barrett who has been a musician since the tender age of 5. He began his musical career playing in local pubs and clubs and worked his way to becoming a busy and in demand international musician often appearing on Danish and European TV stations. Phil can quite literally turn his hand to any genre of music and his striking vocal similarity to Sir Elton John makes this show one of the most authentically produced out there right now. Flamboyant diamante encrusted costumes are all part of this incredible show and every Elton move and characteristic is performed to perfection.

The Elton John Story is performed by a minimum four piece band made up of the very best world-class musicians. The band's set up looks amazing with Phil's sparkling white baby grand piano taking centre stage. Only the very best sound and lighting is used to produce this top class tribute show that is perfect for theatres, corporates and hotel entertainment.
