

The Madonna Show

Description

The Madonna Show is an outstanding tribute to the undisputed Queen of Pop.

The show replicates Madonna's 80's edgy pop sound and care free fun image in Material Girl, to the seductive sound and choreography of Vogue which is delivered with all the class, attitude, and panache that made Madonna so world renowned.

With choreographed dance routines, pop vocals and an array of number 1 hits – this show will leave you feeling like you have just been to see Madonna in concert. The show includes all of Madonnas greatest hits, old and new which have dominated the charts for decades.

Like Madonna, Carol is a natural born performer.
